I would be happy to opt-in to having my name, boat name, email and contact details in an on-line duty rota

Yes

No

In all cases above, the term "member" refers to the entire family. I understand that if I moor a craft in the marina, it must comply with the dimensions specified in the mooring rules, and details must be provided to the harbourmaster before using an allocated mooring. The information provided in your application will be used solely for processing your application, including payment processing. If your application for membership is successful, it will be used to manage your membership with RMBC. The data will not be shared with any third party for marketing or commercial purposes, except with the Canal and River Trust for boat licensing. Upon leaving the club, all your data will be erased, except as required by HMRC. The club's records are maintained on a cloud-based system. Data may be stored outside the EEA and could be accessed by local authorities or HMRC if required.
